

United as One Association of Flight Attendants-CWA

January 15, 2016

As we enter a critical period in bargaining a joint contract for United Flight Attendants, there is no room for divisive tactics when only solidarity should exist. Our collective focus is on achieving a joint contract we can ratify. In this time of record profits especially, we must achieve our fair share. Efforts to distract us or undermine our union directly impact our collective ability to put money in the pockets of Flight Attendants and their families.

Our solidarity determines our power at the negotiating table. It is paramount that every member stand together in support of our union, the Association of Flight Attendants-CWA, and demonstrate to management that we will not be distracted from our collective goal. We are united in our resolve to achieve a contract that recognizes our valuable contributions to United Airlines.

Never before in history has one negotiation directly affected so many Flight Attendants. Management doesn't want AFA to become industry-wide like ALPA. They don't want Flight Attendants having that kind of power. That's why airline management is so intent on sowing discord. Standing together and supporting each other has never been so important.

As always, we urge members with questions to talk with local AFA representatives to get the facts. Help combat misinformation. Every Flight Attendant can take an active role in helping to build our solidarity to achieve the contract we want to ratify.

Unity is our greatest strength. Stand with us as one united group of Flight Attendants in the Association of Flight Attendants-CWA.

In Solidarity,

AFA Joint Master Executive Councils representing United Airlines Flight Attendants
